# Initial Working Plan

- 🖥️ Invite all or more colleges to participate.
  - 🖥️ A Training to activate the committee
    - 🖥️ Ethical Hacking
- 🖥️ Activate Internet site for IT committee
  - 🖥️ New <http://www.rammac-it.org>
- 🖥️ Supplier Development
  - 🖥️ Re-New the sub committee and implement a new strategy for evaluation.

# More ...

## Foster security conscience

Plus Technical meeting with supplier we have 30min of technical information on each monthly meeting

Ethical Hacking Training first class was for 20 people we will push for other class and invite more people.

## Foster knowledge of new technologies

We are looking to implement the ITIL foundations to help and improve all process of the IT in the companies.

## Share with RAMMAC to the Society the IT and knowledge for the young people for future.

Plus the continuation of the computer donation programs from last year, we will find space for Universities inside the Expo.
